**LIGHTWORKS OPTICS WINS INFRARED SEARCH AND TRACK SYSTEM CONTRACT**

TUSTIN, California. - July 25, 2008 - LightWorks Optics, Inc. has been awarded a multi-million dollar direct commercial sales contract for hardware related to the Infrared Search and Track System (IRST) from Lockheed Martin [NYSE: LMT]. LightWorks Optics, Inc., located in Tustin, California, is a leading solutions provider for the design, development, and fabrication of advanced integrated optical systems. Contract value and quantities were not disclosed.

This award represents a continuation of the ongoing teaming relationship between Lockheed Martin and LightWorks in providing high tech, state-of-the-art optical subsystems.

**About LightWorks Optics**

LightWorks Optics, Inc. is an employee-owned company, specializing in concurrent engineering collaboration to develop integrated optical systems solutions for advanced applications. Its design team provides technical expertise and leadership, from concept to design through manufacturing and production. Focusing on prototype to production development efforts, the company designs, manufactures, assembles, and tests precision optical systems and components at its Tustin, California, facility. LightWorks has recently opened its High-Volume Production (HVP) Division in Vista, California, in order to compete in the high-volume production of optical components and assemblies. For more information about LightWorks Optics, visit [www.lightworksoptics.com](http://www.lightworksoptics.com).
